Personal Profile

Passionate and results-driven Software Engineer with strong expertise in **frontend and mobile development**. Experienced in delivering scalable web applications and high-quality mobile apps across **finance, consulting, and startup environments**. Adept at leading teams, mentoring developers, and collaborating with cross-functional stakeholders to deliver impactful solutions. Skilled in **React, React Native, Next.js, and modern DevOps practices**, with proven success in **banking and fintech projects**.

Skills & Expertise

Languages: JavaScript, TypeScript, HTML5/CSS, Python, Java

Frameworks & Libraries: ReactJS, NextJS, NodeJS, React Native, React Query, Material UI

Testing: Jest, Cypress

Cloud & Tools: AWS, GCP, Firebase, Docker, Git, Postman, Swagger, Jira, Agile/Scrum

Other: Bilingual (English & Korean), Strong communication and mentoring skills

Working Experience

Synpulse (Hong Kong) – Senior Software Engineer (Frontend)

2023 – Present

Wealth Management Platform (Top 3 Thailand Bank) – Frontend Technical Lead

- Led frontend development for a large-scale banking platform [ReactJS, NextJS, TypeScript].
- Delivered the platform in 6 months with a low defect rate, fully responsive UI (desktop & iPad).
- Optimized API workflows for smooth frontend-backend communication.
- Mentored developers across Thailand & Philippines, improving code quality and delivery speed.
- Implemented **i18n multi-language support**, improving user experience across regions.

PULSE8 Wealth Cockpit – Senior Frontend Developer

- Built complex wealth management features such as portfolio rebalancing & interactive charts.
- Integrated testing frameworks (Cypress, Jest) for robust delivery.
- Collaborated closely with designers and business analysts for seamless development.

PULSE8 Frontend Component Library

- Developed an organization-wide UI library for reusable, customizable components.
 - Improved design consistency and reduced defect rates across applications.
 - Coordinated with global teams for integration and updates.
-

Merlin's Beard (South Korea) – Frontend Engineer (Part-time)

2022 – 2023

- Developed a **global targeted SNS mobile app** using React Native & TypeScript.
 - Contributed to product ideation and pivoting, collaborating with cross-functional teams.
-

Document on Ready Ltd. (Hong Kong) – Web Programmer (Intern)

2019 – 2020

- Improved **GU Hong Kong Stock Management System**, reducing data processing time by 50%.
 - Refactored **GU Menu & Content System**, replacing legacy Excel-based workflows with a web admin panel.
-

Projects

- **CityStocker – Full Stack (Next.js, Node.js, Firebase, GCP)**
Cryptocurrency market simulator with real-time trading and algorithm backtesting.
 - **FilmIt – Frontend Developer (React Native)**
Social networking app with animated features (e.g., Instagram-like stories).
 - **Barcode – Frontend Developer (React Native)**
Commerce app for barcode scanning and product linking (delivered in 2-week agile sprint).
 - **BobPlace – Frontend Developer (React Native)**
Mission-based reward app for restaurants, developed from scratch in a team of 5.
-

Education

City University of Hong Kong – BSc in Computer Science (CGPA 3.42/4.3)
2018 – 2023

Indus International School of Bangalore – IB Certificate Program
2016 – 2018
